FINE FEATURES

Walnut veneer, carefully selected for its beautiful figuring is used throughout the interior to provide a luxury finish in harmony with the interior furnishings. The glove box is a deep glove box with a lock and the instrument panel contains a speedometer, rev. counter, clock, petrol gauge, etc. The rake of the adjustable seat in conjunction with seat angle has been carefully planned to provide maximum comfort in driving ease. Automatic transmission, power-assisted steering, etc. completes a car which must captivate all who drive it.

LUGGAGE ACCOMMODATION

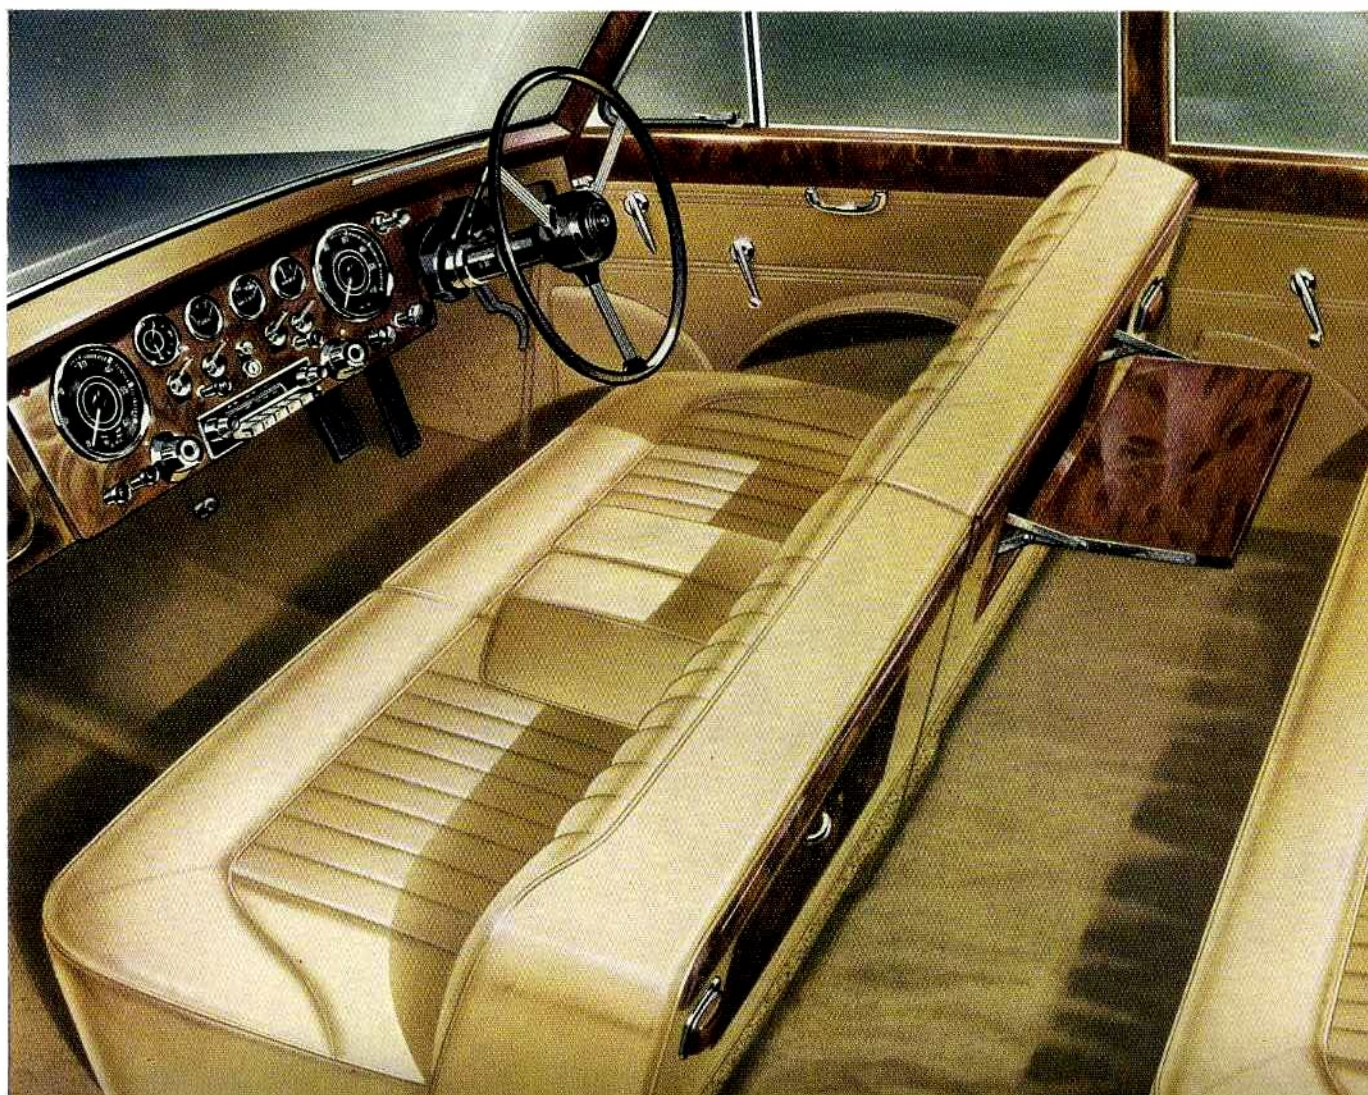

Almost incredible—the number of cases you can stow in the boot of this car. It has room for all the family's holiday luggage, is even wide enough to hold deckchairs.

Stout security locks keep it securely closed and easy action struts hold it open.

The spare wheel is neatly housed in a well beneath the boot floor.

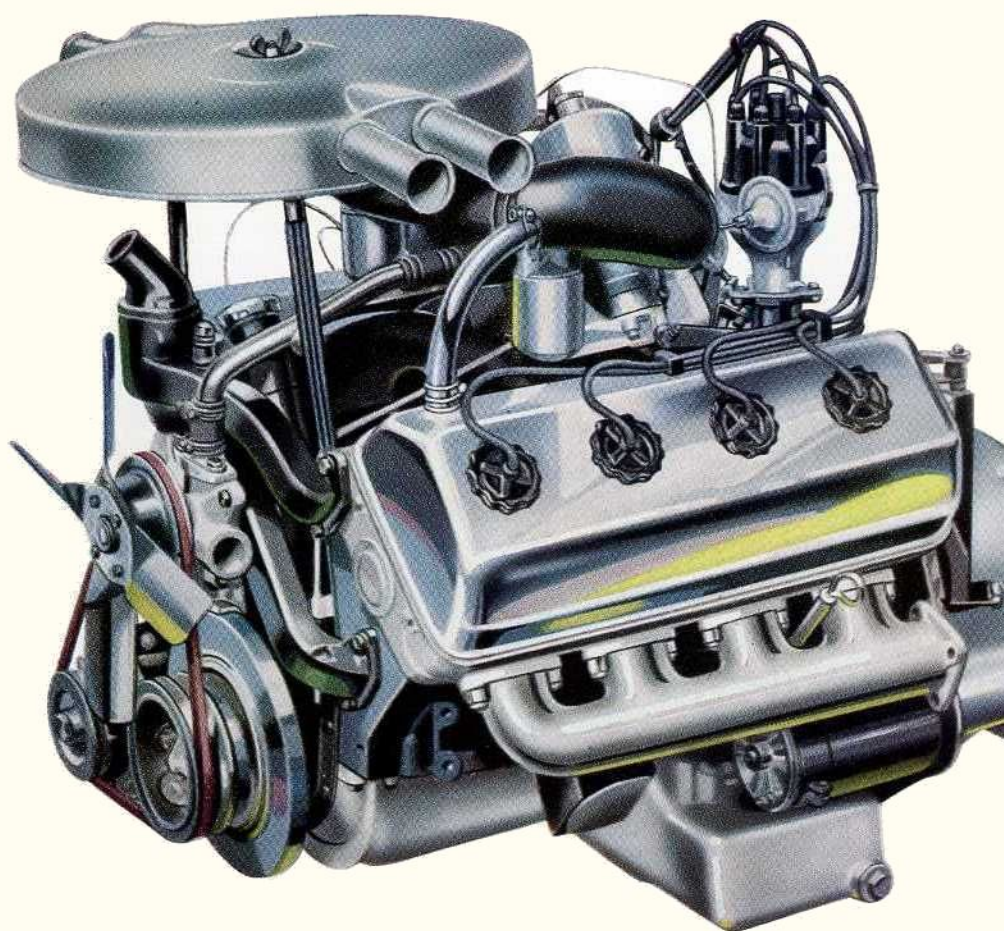

INTERIOR

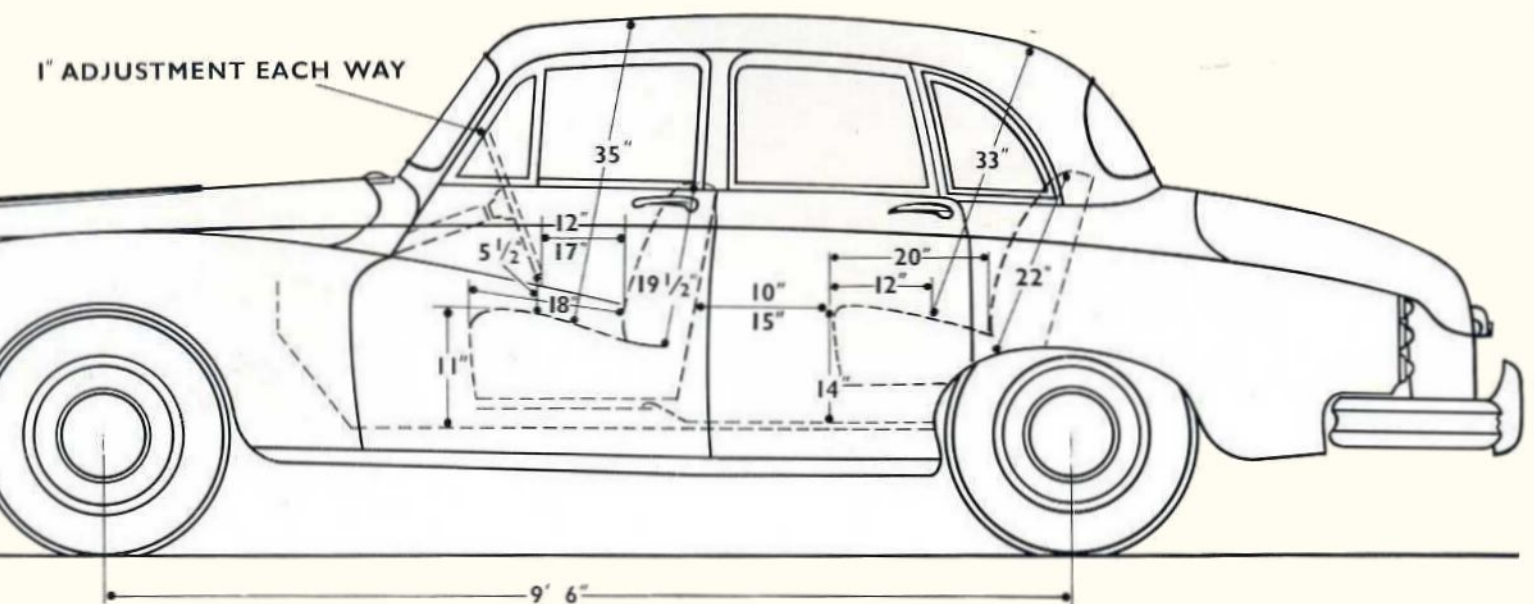

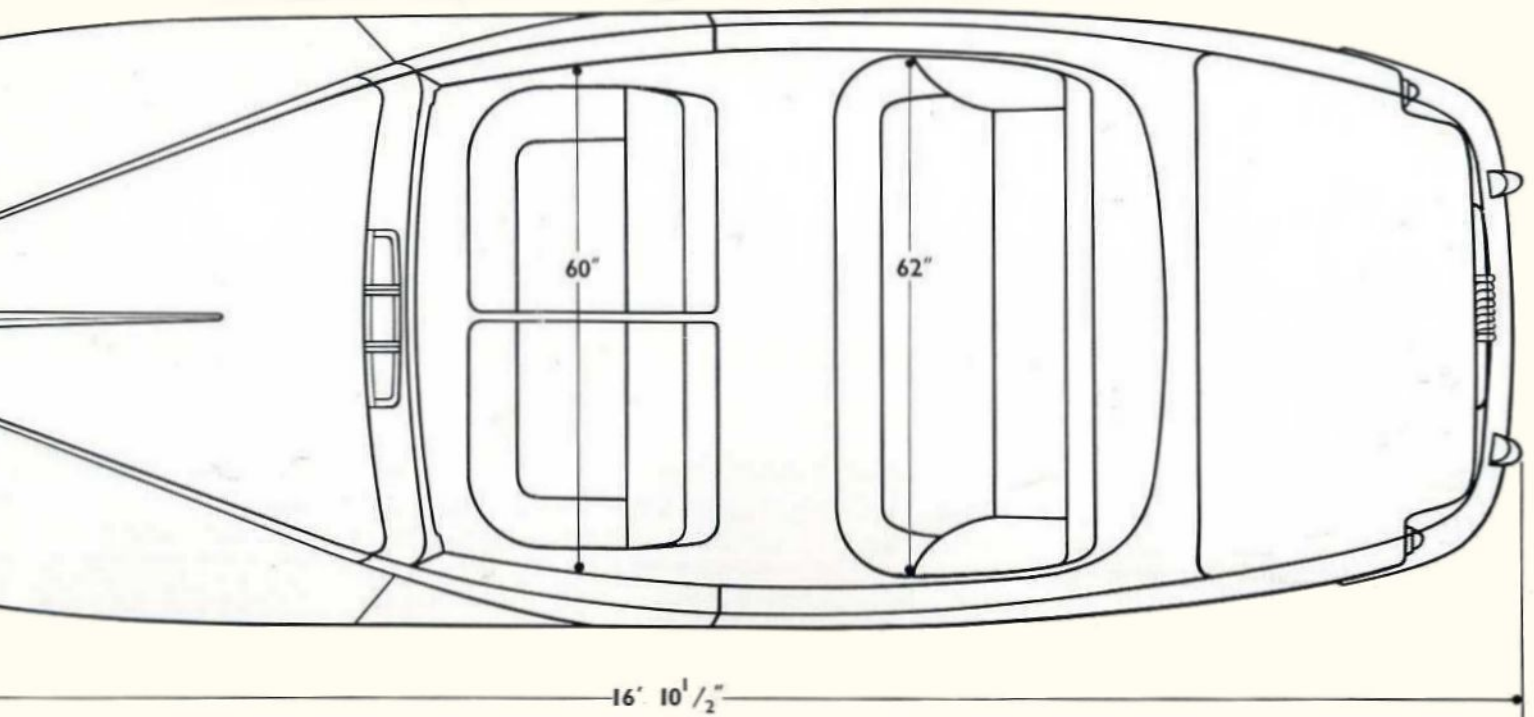

Majestic proportions, roomy at ease, comfort of the leather with the separately upholstered seats or 12 fold-up seats. Centre console rests in front doors. Deep walnut note of characterises the interior.

4.5 LITRE V-TYPE EIGHT CYLINDER ENGINE

Majestic Major engine is an entirely new and
ced design of 90° Vee-eight developing 220
at 5,500 r.p.m. and speeds in excess of 120
are achieved with unbelievable flexibility.
nely compact it has inclined overhead valves
included angle of 70° operated by duralumin
ods from a single central chain driven
shaft. The valves operate in aluminium alloy
er heads with hemispherical combustion
bers which are fed by two carburetters. Five
bearings support a particularly robust forged
shaft. Twin S.U. carburetters give instant
ng and smooth running at all speeds with
rkable economy. Other features include a gear
oil pump, twin contact breakers and a rub-
a-shear torsional vibration damper.

Daimler cars are offered subject to Conditions of Sale set out in the Company's Purchase Agreement Form. The right is reserved to alter any detail of price, specification or eq
