

X K R Silverstone

The XKR Silverstone brandishes an appearance unique to the XK Series — with a demeanor appropriately matched to its legendary name. The special combination of exterior and interior components and features were carefully chosen for the driving enthusiast to provide an experience as exciting as a Grand Prix weekend.

The limited-edition Silverstone package properly celebrates Formula One technology and exclusivity. The package includes an immediately recognizable Platinum paint finish (with a black top on the Convertible), visible high-performance handling components, model-specific upholstery and trim and full complement of interior amenities.

Technical Specifications

Engine and Drivetrain

Engine type	Supercharged intercooled 90° V8 Aluminum alloy cylinder head/block. DOHC, 32-valve. Fixed cam phasing
Displacement—litres (cc)	4.0 (3996)
Bore x stroke—in (mm)	3.39 (86) x 3.39 (86)
Compression ratio	9.0:1
Maximum horsepower BHP @ RPM	370 @ 6150
Maximum torque lb ft @ RPM	387 @ 3600
Ignition system	Electronic
Fuel system/Fuel grade	Electronic fuel injection/Premium unleaded
Transmission type	5-speed automatic (normal/sport modes)
Top gear ratio	0.83:1
Final drive ratio	3.06:1

Tires, Braking, Suspension

Wheel type and size	Detroit-style alloy Front: 9J x 20 Rear: 10J x 20
Tires size	Front: Pirelli 255/35 ZR 20 Rear: Pirelli 285/30 ZR 20
Braking system	Vacuum-power-assisted 4-wheel ventilated disc brakes with Brembo four-piston aluminum calipers. Electronically controlled anti-lock braking system. Independent front and rear hydraulic circuits incorporating fluid loss warning sensor. Hand-operated mechanical parking brake.
Steering	Power-assisted, speed-sensitive variable ratio rack-and-pinion steering. Energy-absorbing steering column. Electric tilt and telescopic adjustment with memory and auto-tilt-away feature with airbag (SRS).
Turns lock-to-lock	2.8
Front suspension	Sport-tuned with Computer Active Technology Suspension (CATS). Fully independent with twin wishbones. Steel coil springs with adaptive telescopic dampers. Anti-dive geometry providing longitudinal stability under heavy braking. Anti-roll bar.
Rear suspension	Sport-tuned with Computer Active Technology Suspension (CATS). Fully independent with lower wishbones and driveshafts acting as upper links. Steel coil springs and shock absorbers with adaptive telescopic dampers. Anti-roll bar.

All Silverstone coupes benefit from the Performance Handling Package which includes: recalibrated electronic control unit and damper settings of the CATS system for taut handling; 10 millimeter lowered ride height; 1 millimeter increase in diameter of front anti-roll bar (to 26mm) and to maintain balance, a decrease of 2 millimeters to the rear anti-roll bar (to 15mm); 34% increase in front spring rate and 15% increase in rear spring rate higher than the convertible specification; re-tuned electronic control unit of the speed-sensitive variable-ratio steering system for enhanced precision and feel; and stiffened steering rack mounting bushings.

Chassis systems point to high performance, featuring ultra-low-profile Pirelli P Zero 255/35 front and 285/30 rear tires, 20-inch BBS alloy wheels and vented/cross-drilled Brembo brakes.

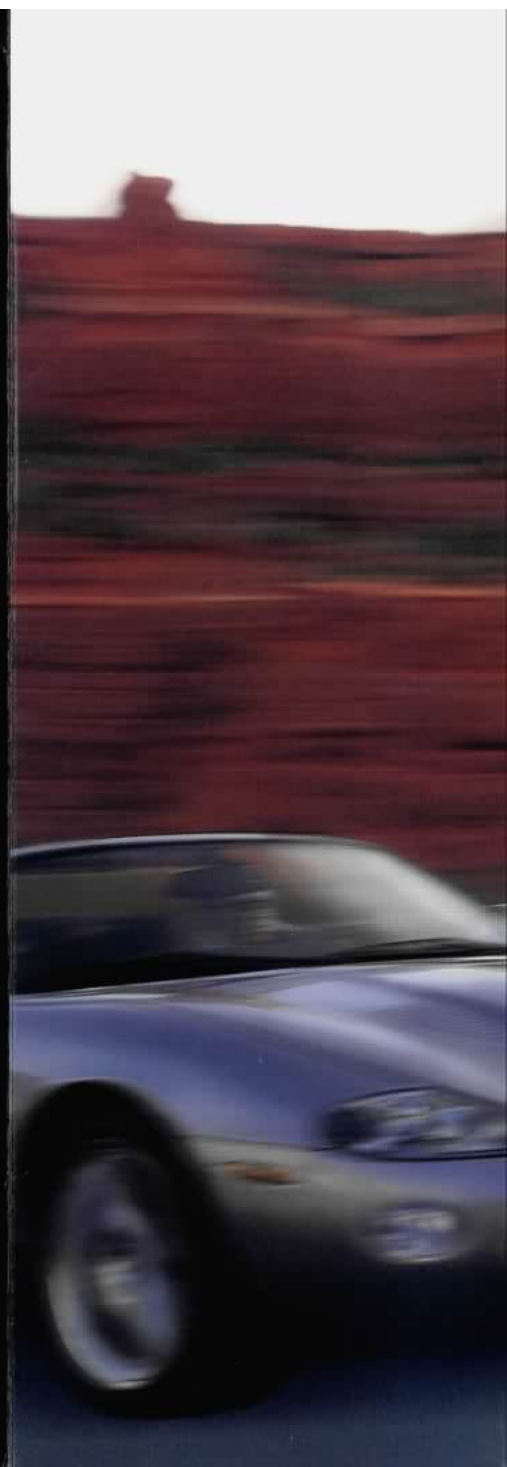

The Silverstone interior features sports seats and steering wheel trimmed in Warm Charcoal leather with red stitching.

Silverstone Coupe

JAGUAR
THE ART of PERFORMANCE

THE
NEW XK

JAGUAR

XK CONVERTIBLE

With the electric hood raised, you're sheltered from the world. With it lowered, you can feel the power of the elements and exhilarating acceleration.

Car shown: **XKB CONVERTIBLE** in Radiance with optional Atlas 19" cast alloy wheels (standard on XKR Premium).

LUXURIOUS EXHILARATION

XK INTERIORS

To complement the cerebral stimulation of driving the XK, there's the aesthetic and tactile pleasure of its interior. The full leather upholstery is hand selected, while the wood veneer is painstakingly mirror-matched by the experienced eyes and steady hands of dedicated craftsmen and women - creating the uniquely welcoming look, feel and even smell of a Jaguar interior.

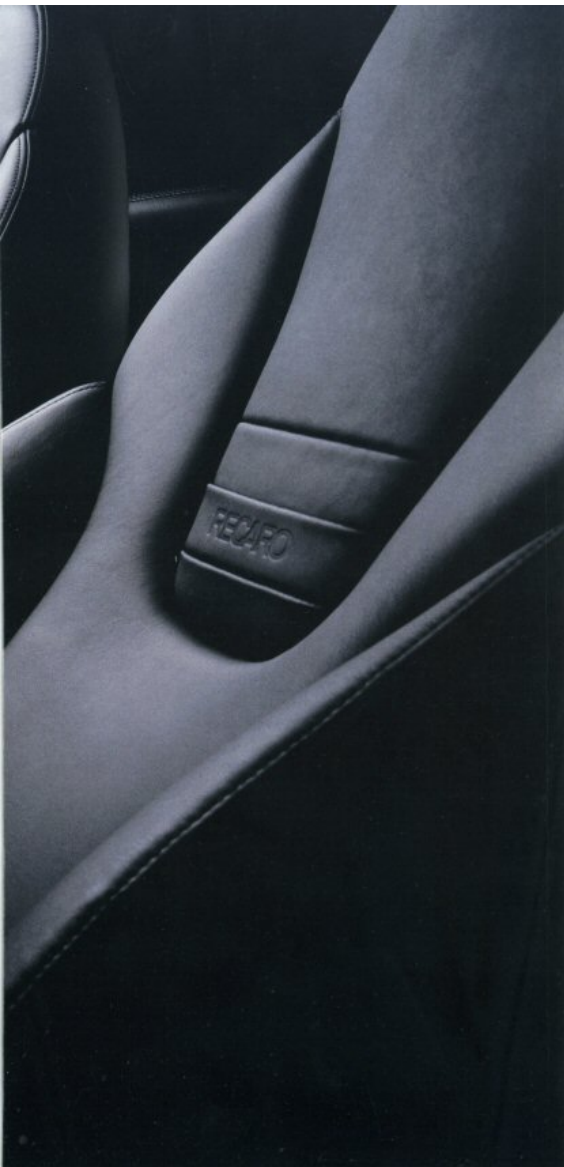

With a Jaguar, traditional luxury is tastefully integrated with intelligent technology. The XK's generous standard equipment, which includes an electrically adjustable steering column and automatic speed limiter, can be enhanced by choosing the XK8 Premium and XKR Premium. Both models offer a comprehensive complement of styling and practical features, such as heated front windscreen and rear parking assist. See the XK Specification and Price Guide for full details.

Car shown: **XK8 CONVERTIBLE** in Radiance with Ivory Classic interior, sport seats and Aluminium pack.

R PERFORMANCE ALUMINIUM PEDAL PADS

Rubber studs give extra grip and give the appearance of racing-style drilled pedals to emphasise the XK's phenomenal performance.
[Aluminium pack].

R PERFORMANCE ALUMINIUM BEZELS

A particularly effective detail highlight for the dashboard instruments.
[Aluminium pack].

R PERFORMANCE J-GATE SURROUND

A sporty Aluminium surround to enhance the distinctive J-Gate automatic transmission selector.
[Aluminium pack].

SPORT INTERIOR WITH R PERFORMANCE OPTIONS

Even before you start the engine, this interior provides strong hints of the performance to come. The dramatic soft grain Recaro leather seats are shaped with extra side bolstering, to give you body hugging lateral support during cornering. Shown here also, with the R Performance Aluminium instrument bezels and J-gate surround, Momo gear knob and all leather sports steering wheel featuring a thicker rim that ensures you're fully in touch with the XK's cornering abilities.

SPORT SEATS

Sport perforated leather seats have firm but comfortable side bolsters to give you an extra feeling of security during spirited driving. (Standard for XK8 Premium and XKR, optional for XK8 and a no-cost option for XKR Premium).

ELECTRIC AND MEMORY SEATS

The 12 way electrically adjustable front seats include power adjustment for head restraints and lumbar support. With the memory pack (optional for XK8 and standard for all other models), your preferred settings for the driver position, steering column and exterior mirrors can be stored along with those of another driver.

ELECTRICALLY ADJUSTABLE STEERING WHEEL

The steering wheel adjusts electrically for reach and rake, with entry and exit tilt-away, to achieve your most comfortable driving position.

CLASSIC INTERIOR

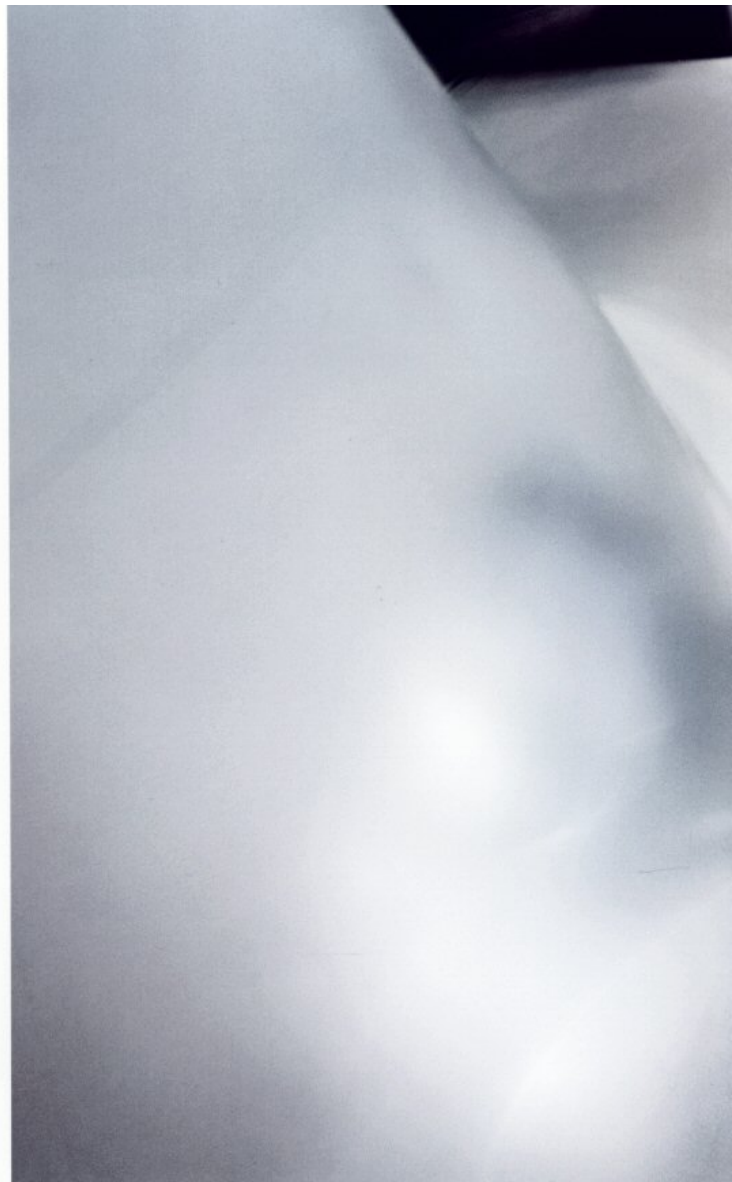

As enticing and dramatic as the XK's performance. The Classic interior shown here, features optional Ivory leather seating, Burr Walnut veneer for the dashboard with standard wood and leather steering wheel (not available on XKR Premium).

STRENGTH IN MUSCLE AND MIND

XK PERFORMANCE AND TECHNOLOGY

It might surprise you that a car as potent as the XK is so easy to drive. Technological innovations such as Computer Active Technology Suspension (CATS) and Dynamic Stability Control (DSC) help you to safely enjoy every last horsepower or simply to relax and let the V8's effortless energy reel in the road ahead.

With CATS, a network of sensors monitors the road conditions, speed and attitude of the car and even your driving style. A powerful microprocessor then adjusts the two-stage adaptive suspension several times per second, to ensure you benefit from a smooth, stable ride with optimum grip. Meanwhile, DSC seamlessly prevents understeer or oversteer and improves traction, using the XK's anti-lock brakes and traction control. Both systems are subtle and virtually unnoticeable - though you may wonder how you can still drive in a straight line with one rear wheel on ice and the other on tarmac.

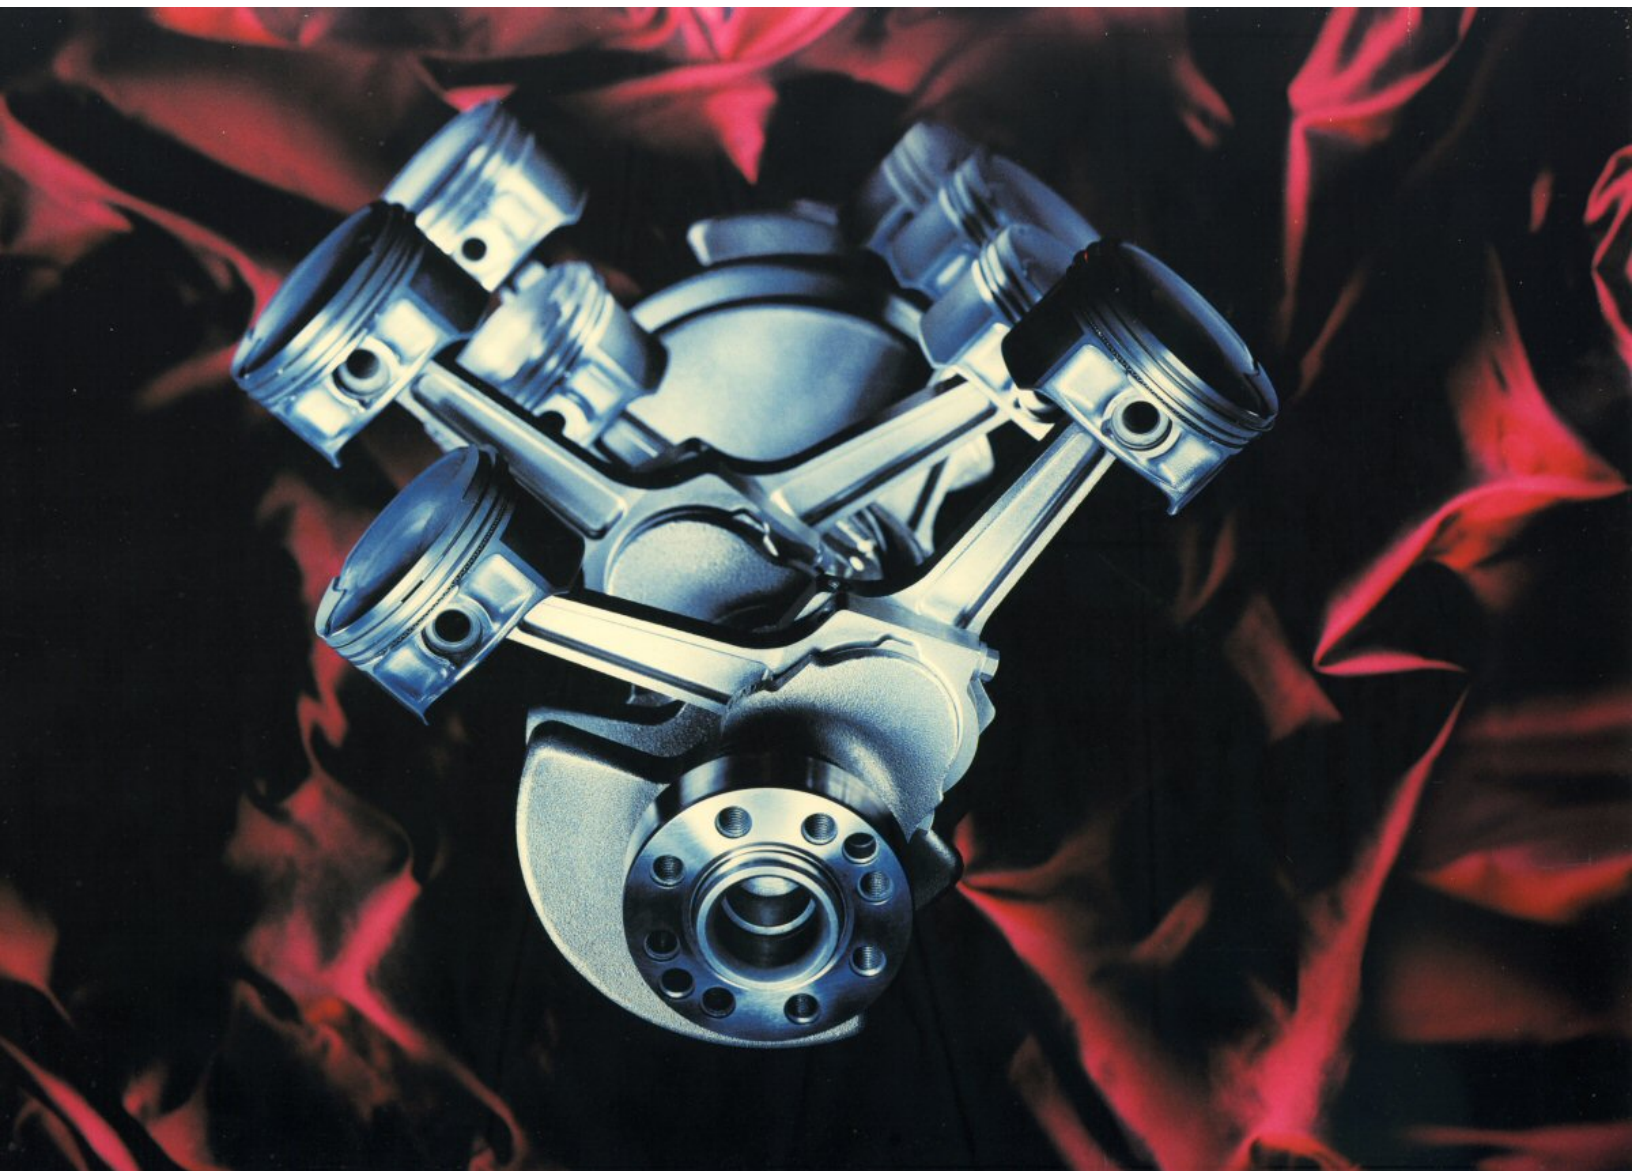

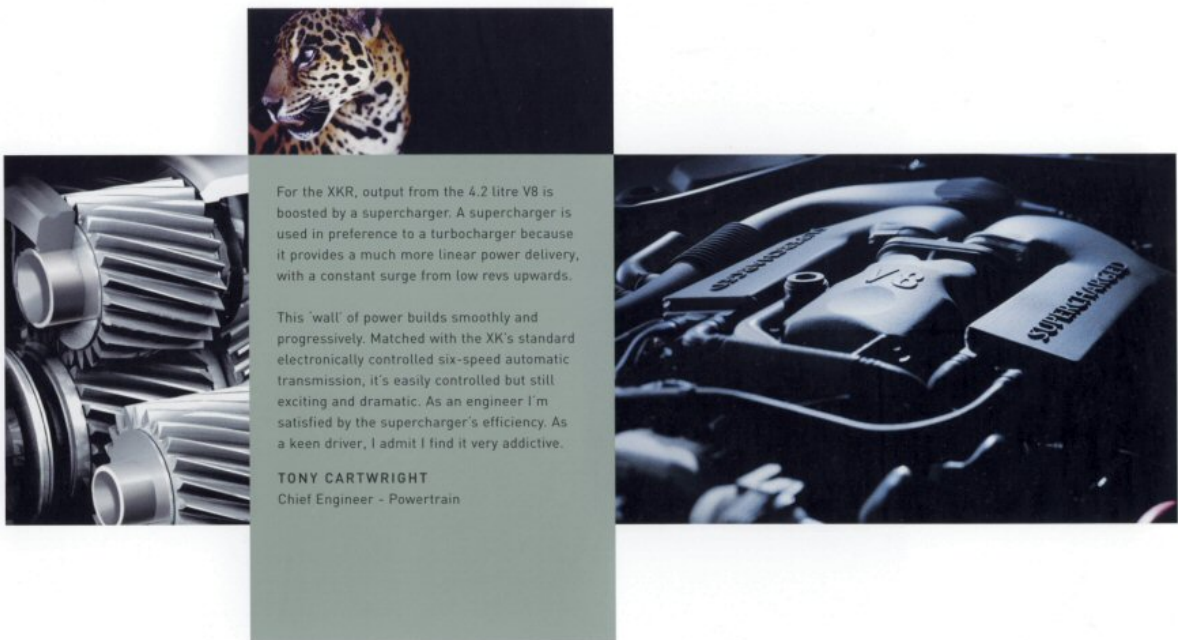

THE BALANCE OF POWER

The XK uses the front engine, rear wheel drive layout preferred by sports car enthusiasts, to provide handling that's predictably safe yet still liberatingly enjoyable.

Car shown here: **XKR COUPE** in Platinum, clearly showing the distinctive body louvers and new front mesh finisher unique to XKR.

For the XKR, output from the 4.2 litre V8 is boosted by a supercharger. A supercharger is used in preference to a turbocharger because it provides a much more linear power delivery, with a constant surge from low revs upwards.

This 'wall' of power builds smoothly and progressively. Matched with the XK's standard electronically controlled six-speed automatic transmission, it's easily controlled but still exciting and dramatic. As an engineer I'm satisfied by the supercharger's efficiency. As a keen driver, I admit I find it very addictive.

TONY CARTWRIGHT
Chief Engineer - Powertrain

V8 PERFORMANCE
Heart of the XK, the extraordinary 4.2 litre V8 engine. Four variable phase camshafts operating four valves per cylinder unleash 300 bhp and 420 Nm, taking you to 60mph from standstill in 6.1 seconds (coupé). The supercharged XKR version is even more impressive: 400bhp, 553 Nm of torque and 0 to 60mph in only 5.2 seconds (coupé). Both engines are matched to a six-speed electronic automatic transmission.

For a sports car to offer genuinely usable performance, how fast it stops is equally as important as how fast it goes. The XK's braking system has been designed to provide stopping power in reserve. The four large discs are all ventilated, dissipating the high temperatures generated by repeated application of the brakes from speed and thus avoiding brake 'fade'.

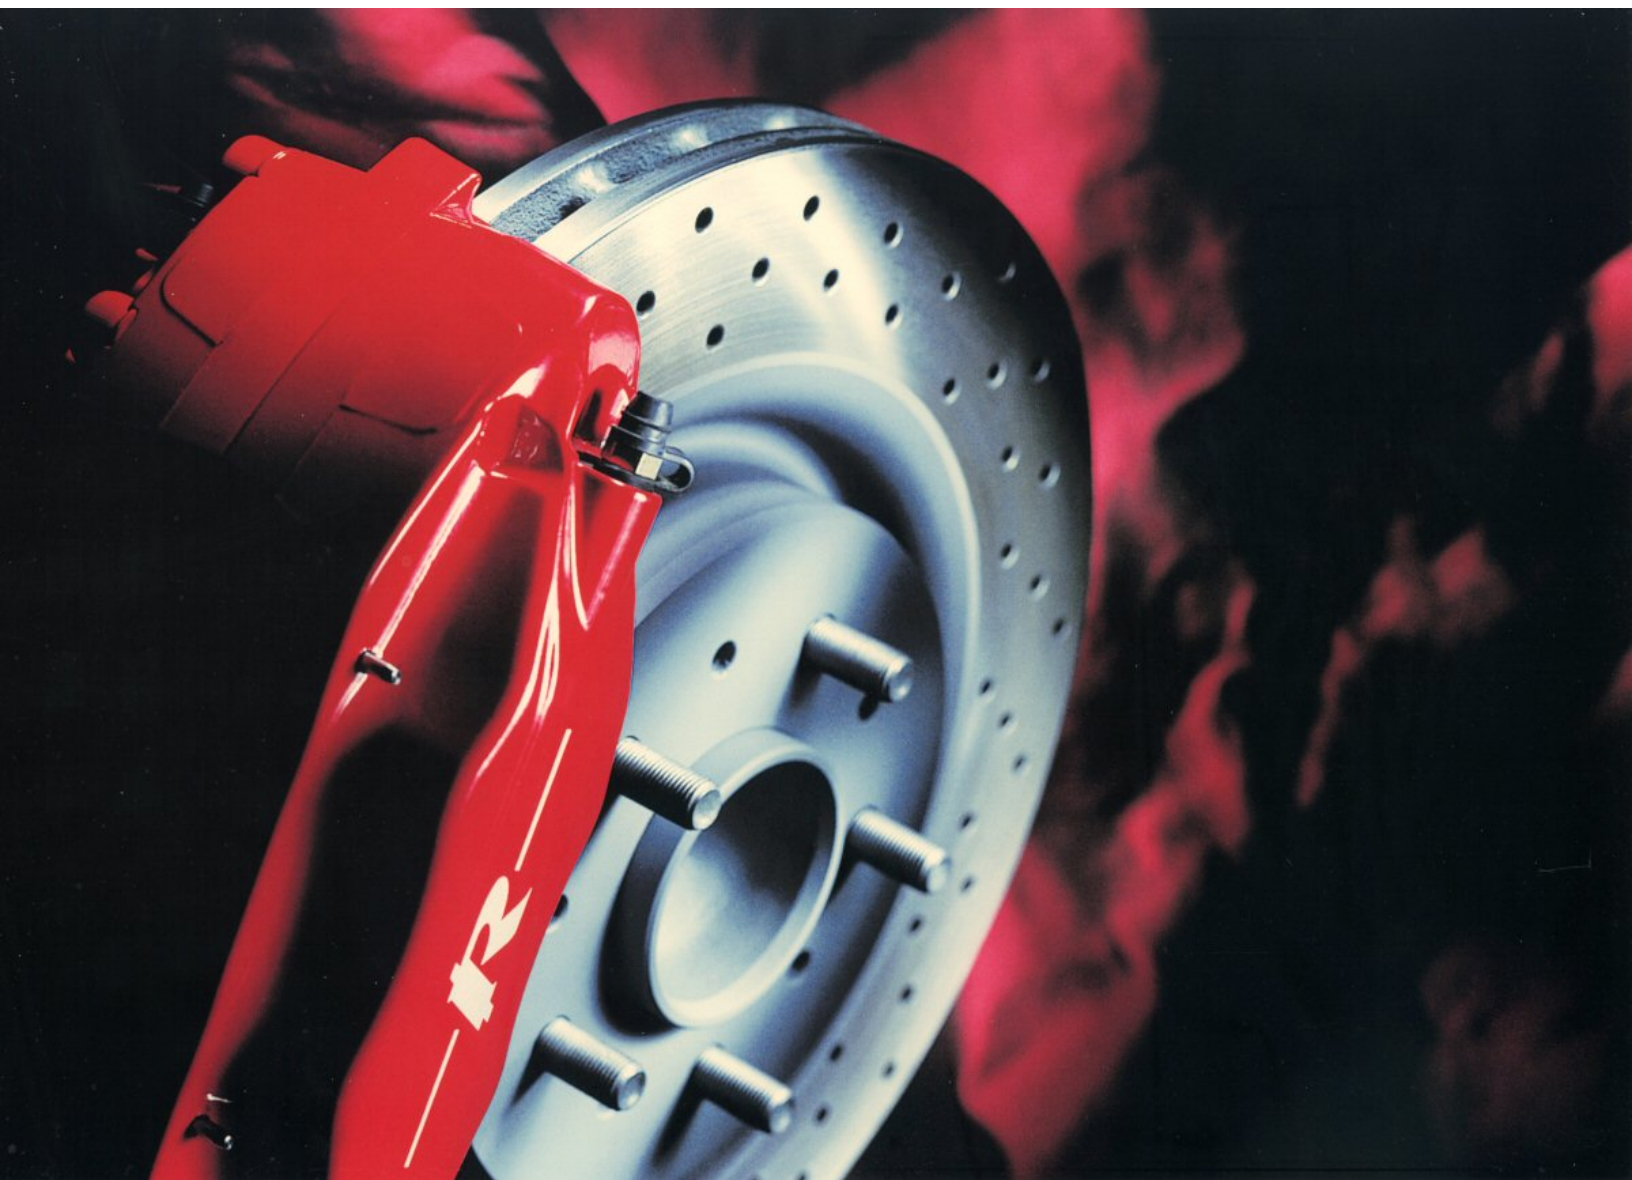

Two other factors contribute to the effectiveness of the XK's brakes. One is the overall stability of the chassis. Our suspension engineering and innovations such as DSC provide the balance that lets you brake hard with confidence, knowing the car will remain balanced and controllable. The second factor is EBA - Emergency Brake Assist. If you hit the brake pedal fast, sensors respond to the urgency of the situation by applying maximum braking power to pull you up in the shortest possible distance.

DAVID WAIDE
Chief Engineer - Chassis Group

HIGH SPEED BRAKING

Visible evidence of ultimate braking power. The XKR is equipped with R Performance four piston callipers by Brembo as standard. Shown here with optional R Performance cross-drilled brake discs (standard on XKR Premium) and red colour callipers.

SAFETY

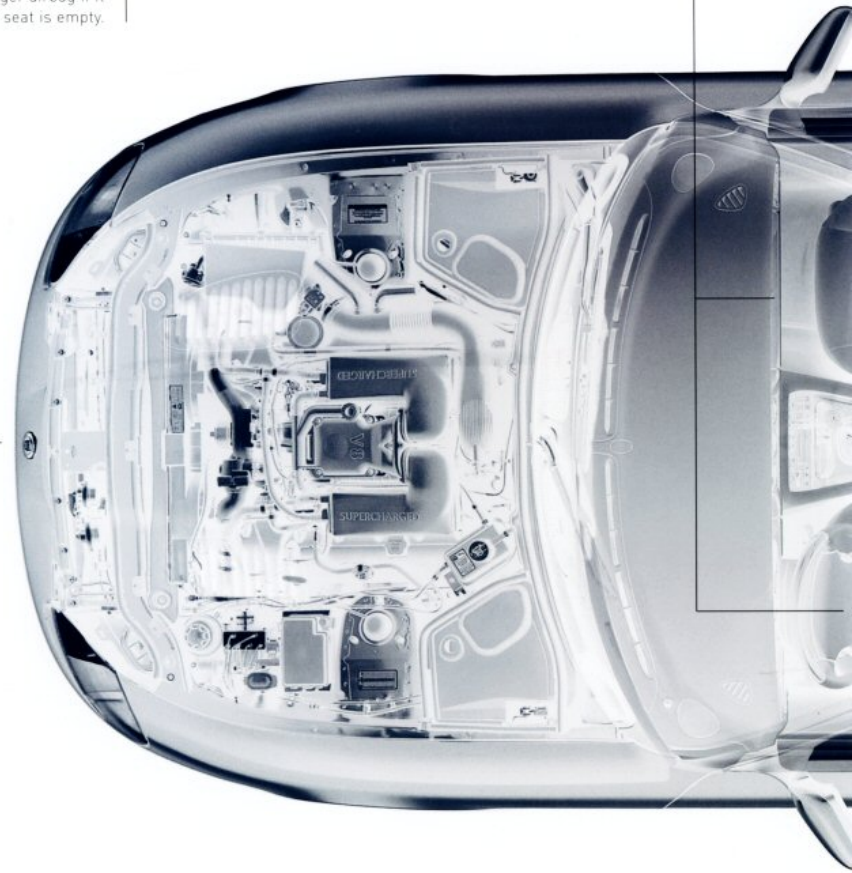

The XK's responsible attitude to safety includes unique Jaguar innovations such as the Adaptive Restraint Technology System [A.R.T.S.]. In fractions of a second, A.R.T.S. implements an intelligent airbag deployment that you could be thankful for, for the rest of your life.

DRIVER AND PASSENGER AIRBAGS

The front airbags work in conjunction with A.R.T.S., with different levels of inflation depending on the severity of the collision. The system won't deploy the passenger airbag if it senses the seat is empty.

IMPACT ABSORBING CRUMPLE ZONES

The computer-engineered body structure is designed to help protect occupants from side or rollover accidents, with crumple zones to dissipate the force of front or rear impacts.

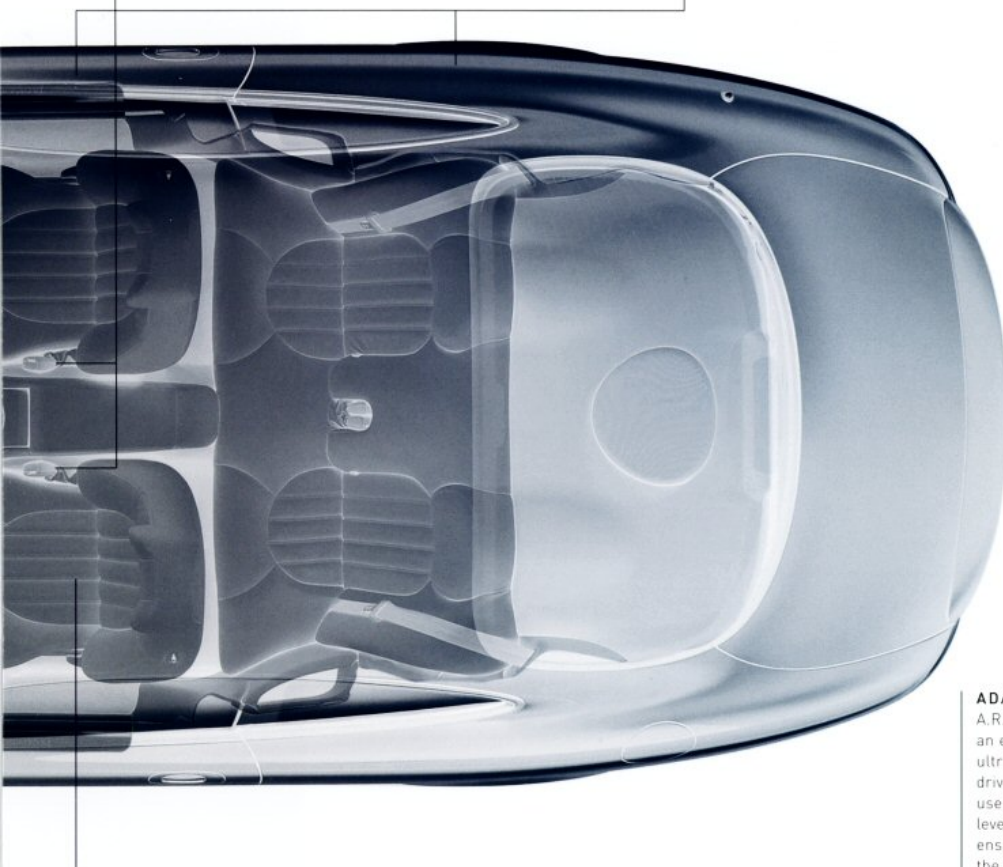

SEATBELT PRE-TENSIONERS

In a frontal impact, any slack in the seatbelts might cause injury. The XK is equipped with electronically activated seatbelt pre-tensioners that react to an accident in milliseconds, helping to hold the occupant safely in position.

SIDE AND CURTAIN AIRBAGS

For extra protection, front seat mounted side airbags deploy in a severe side impact to help cushion the head and torso.

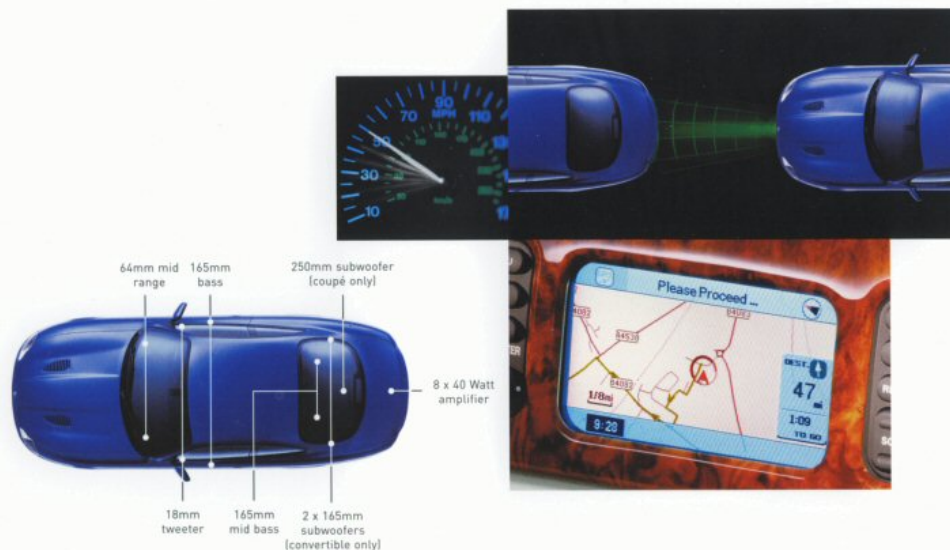

As an intelligently designed system, A.R.T.S. recognises that people come in different shapes and sizes and behave differently while driving. For example, if a shorter driver has moved their seat close to the steering wheel, A.R.T.S. ensures that their airbag will be deployed to an extent that offers effective protection but minimises the risk of airbag injury.

The Occupant Spatial Sensing System function (unique to Jaguar) can even distinguish between a passenger leaning forward towards their airbag or simply stretching out their arms (a natural defensive reaction to an accident). Whatever the situation, the airbags will be deployed appropriately, also taking into account the use of seatbelts and the severity of the collision. These vital decisions are continually reviewed, the on-board computer updating its occupancy sensing data every 50 milliseconds (about a fifth of the time it takes to blink an eye).

DAVID COLEMAN
Manager, Safety Component Group

ADAPTIVE RESTRAINT TECHNOLOGY SYSTEM (A.R.T.S.)

A.R.T.S. employs comprehensive and intelligent systems to provide an exceptional standard of protection. Incorporating Jaguar's unique ultrasonic Occupant Spatial Sensing System, it continually rechecks the driver and front passenger's positions. A.R.T.S. also checks for seatbelt use and assesses the severity of a crash to determine the appropriate level of airbag deployment. The occupant classification function also ensures that if the front seat passenger is an infant or small child or if the seat is empty that airbag will not be activated.

AUTOMATIC SPEED LIMITER

Helps you safeguard your driving licence by preventing you exceeding a speed which you pre-set, such as the legal limit. Further pressure on the accelerator will have no effect, though you can deactivate the system by switching it off or using kickdown. It can also be used as a conventional cruise control.

JAGUAR ALPINE PREMIUM SOUND SYSTEM

Featuring 8 (coupé) / 9 (convertible) speakers, a 6 disc CD autochanger, up to 8 x 40 Watts output and Digital Signal Processing, the Jaguar Alpine Premium Sound System now has new dome type door tweeters and uprated rear speakers.

The latest adaptive phase processing 4 band, 4 channel equalisation, anti-distortion circuitry and an improved front speaker layout ensure each occupant enjoys clear and enveloping sound wherever they're sitting.

ADAPTIVE CRUISE CONTROL (ACC)

Another innovative system devised and proven by Jaguar, optional ACC uses sensors to check your distance from the vehicle in front. When you set a cruising speed, it automatically adjusts the throttle and brakes to help maintain a comfortable gap. Or you can switch to Forward Alert mode so it simply alerts you without intervening when you've moved closer than your preferred, pre-set gap.

SATELLITE NAVIGATION

The optional DVD-based satellite navigation system covers most European countries with a single disk and provides clear visual and spoken instructions.

ELEGANT INTELLIGENCE

This R Performance XKR Premium interior with Piano Black veneer, Warm Charcoal steering wheel, Aluminium instrument bezels and J-gate surround, perfectly demonstrates how effectively timeless style can blend with the latest technology.

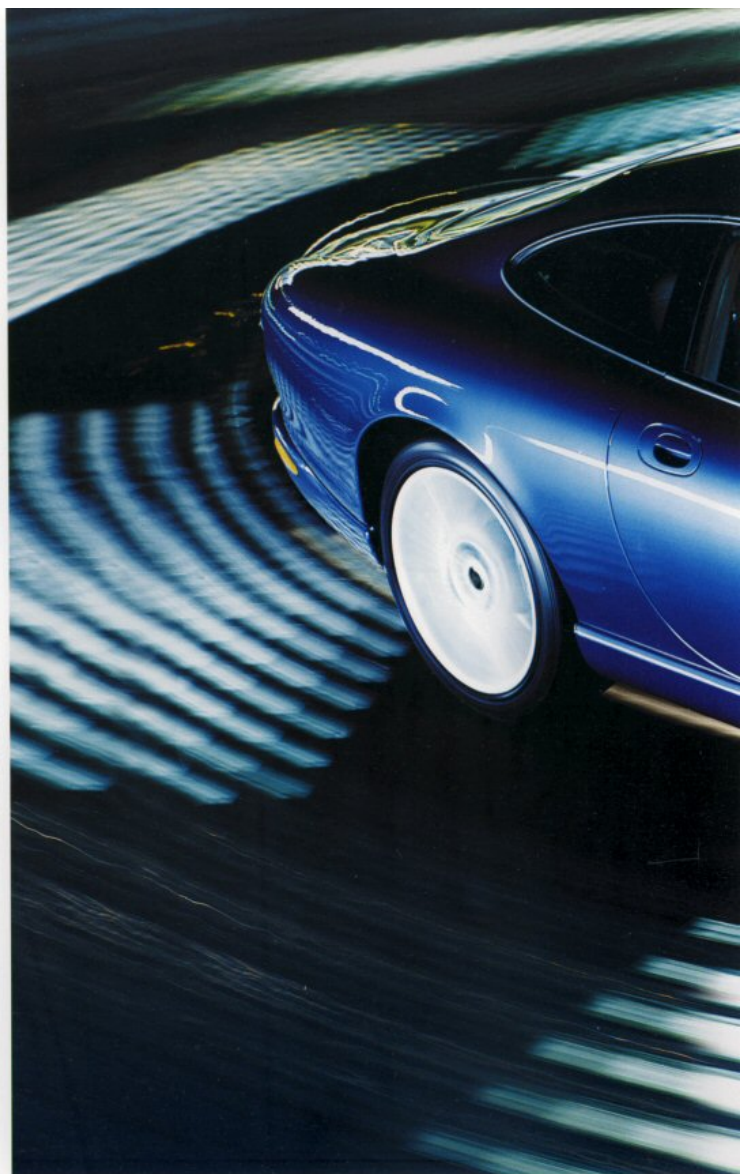

R PERFORMANCE OPTIONS

The XK is justifiably regarded by many drivers as the most desirable of all sports cars. Yet, whether you choose the XK8 or XKR, there's an opportunity to take them further still and create the ultimate visual and performance package, using our Jaguar approved R Performance Options.

Enjoy an comprehensive choice of interior and performance engineering upgrades; such as Aluminium trim detailing, Recaro sport seats, 20" split-rim cast alloy wheels, Brembo brakes and the handling pack, where you can enjoy an even more dynamic appearance with road manners to match. Revised CATS damper settings, steering and anti-roll bar, plus uprated road springs give the XK a lower stance for high-speed stability with a sharper, quicker feel whilst cornering.

For more details, ask your dealer to show you the full range in the R Performance and our other vehicle personalisation brochures or visit www.jaguar.co.uk

Car shown: **XKR COUPE** in Ultraviolet with optional R Performance handling pack and Montreal 20" split-rim cast alloy wheels.

THE JAGUAR OWNERSHIP EXPERIENCE

JAGUAR FINANCIAL SERVICES

Jaguar Financial Services offer a range of finance and insurance plans tailored to provide maximum choice and flexibility. You'll be as impressed with the finance as you are with the car. Your Jaguar dealer will match your personal or business requirements to the most appropriate finance plan, provide you with quotations and process your application.

COMPANY CAR OPT OUT

Because of the changes in company car Benefit in Kind taxation introduced in April 2002, many company fleet operators and company car drivers are considering their alternatives. Jaguar Financial Services and Jaguar Cars Limited have jointly developed a combination of Jaguar Privilege PCP, Jaguar Service Contract and Jaguar Insurance finance and insurance plans for business customers and private individuals who may have chosen to opt out of their company car scheme. Please contact your Jaguar dealer for further information.

WWW.JAGUAR.CO.UK

Your personal Jaguar journey may begin with a visit to jaguar.co.uk. The website includes helpful tools such as a dealer locator, specifications and price lists, the latest information on all the Jaguar models, information on clubs, and a fascinating look into the passion and legacy that infuse the Jaguar name.

JAGUAR MAGAZINE

In this unique owners' publication, you can read about exotic and exciting drives to take with your Jaguar, stories of other Jaguar owners and their experiences with their cars, highlights on Jaguar's activity in the exciting world of Formula One racing, and the finer things that go hand in hand with a luxury lifestyle.

OWNERSHIP

Your Jaguar comes with Total Care which incorporates a 3 year unlimited mileage Vehicle Warranty, together with a 3 year unlimited mileage Paint Surface Warranty and a 6 year unlimited mileage Corrosion [Perforation] Warranty.

SERVICE, ASSURANCE AND PEACE OF MIND

SERVICE AND ASSURANCE

Jaguar Service and Assurance programmes include Standard Price Servicing, so you know the exact cost before servicing commences. Total Tyre Care, from checks on tyre tread depth and pressure, to competitively priced replacement tyres and wheel alignment. Plus Seasonal Health Checks, to ensure your Jaguar is in peak condition all year round.

ONE STOP FOR ALL YOUR JAGUAR NEEDS

Only an official Jaguar dealer can give your car all the care and attention it deserves, with Jaguar trained technicians who have access to the full range of Jaguar approved parts and tools. So that any fitting or repair is carried out exactly the way Jaguar intended.

A comprehensive range of services is available to make your Jaguar ownership experience the very best, for lasting peace of mind.

JAGUAR ASSISTANCE

Jaguar Assistance is 24 hour Incident Management support, designed specifically to help Jaguar drivers in any motoring incident, from minor difficulties such as a puncture to immobilisation due to an accident.

In the UK, our Jaguar trained roadside assistance technicians will get your vehicle back on the road in the shortest possible time. If this is not possible, Jaguar Assistance will find you and your passengers an alternative means of reaching your destination. Travel benefits include car hire, vehicle redelivery and hotel accommodation in the UK. Jaguar European Emergency Assistance affords you similar cover should you be travelling in Continental Europe.

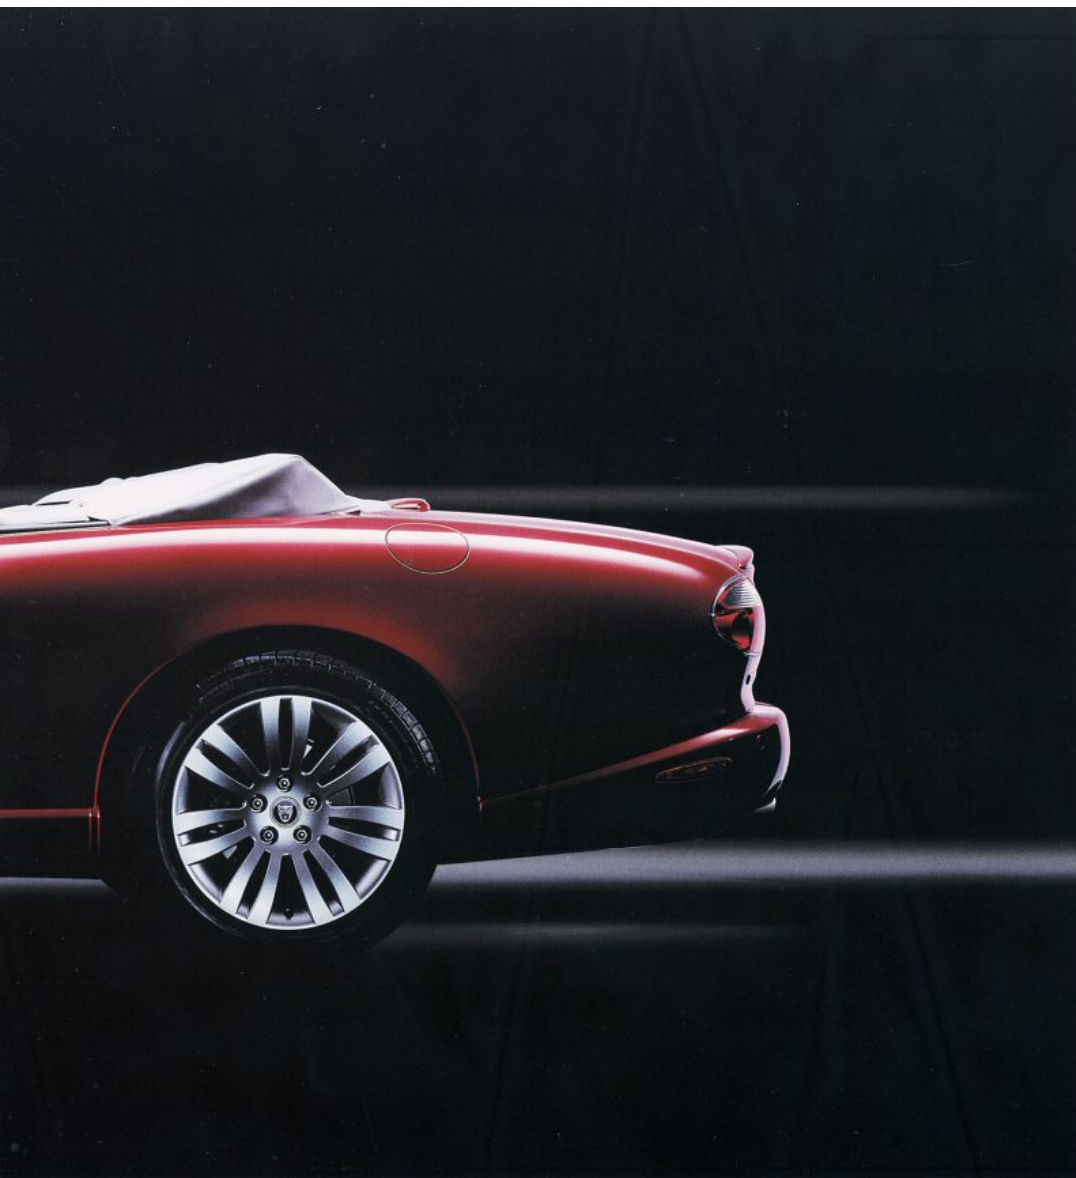

In addition, optional Extended Warranties extend the 3 year unlimited mileage warranty cover for a further 12, 24 or 36 months (years 4, 5 and 6). Each Extended Warranty gives you extensive cover and automatically includes Jaguar Assistance. Ask your dealer for further details.

IMPORTANT NOTICE

Jaguar Cars Limited is constantly seeking ways to improve the specification, design and production of its vehicles and alterations take place continually. Whilst every effort is made to produce up-to-date literature, this brochure should not be regarded as an infallible guide to current specifications, nor does it constitute an offer for the sale of any particular vehicle. Distributors and dealers are not agents of Jaguar Cars Limited by any express or implied undertaking or representation.

ENVIRONMENTAL NOTICE

Jaguar Cars Limited has a vision of being amongst the world's leading companies in demonstrating progress towards sustainability. We aim to do this by contributing to a better quality of life for communities affected by the design, manufacture, use and disposal of Jaguar cars. We believe that playing a supportive role in the communities in which we operate is a privilege, not an obligation. Corporate citizenship goes to the very heart of our company.

It is Jaguar's policy continually to improve its high environmental standards in all areas of business activity.

This brochure is produced using virgin wood fibre from sawmill residues, forest thinnings and sustainable forests. Pulp used is Elemental Chlorine Free.

JAGUAR

Born to perform

JAGUAR
A UNIQUE APPEAL

The Jaguar name instils passion and desire around the world. It stands for distinctive design that is instantly recognised yet continuously evolving.

It promises and delivers legendary levels of comfort and sporting, agile handling. It brings you the benefit of years of development through motor sport, with urgent performance that makes a Jaguar feel alive.

To own a Jaguar is to experience a unique spirit.
To drive a Jaguar is an ambition fulfilled.

THE POWER TO SEDUCE

THE XK RANGE

Available as XK8, XKR and with new, highly specified Premium models, the most sensuous coupé and convertible in the world are now even more sensational. Detail changes to the classic, seductive shape have created a more purposeful stance: low and muscular like a cat ready to pounce, the XK responds with an appropriately dramatic release of energy.

Recently increased to 4.2 litres, the V8 engine makes the XK the most sublime supercar. Its extra power - 300bhp for the XK8 and 400bhp for the supercharged XKR - is delivered smoothly and completely without temperament. The XK is a beast that is controlled and restrained. Yet anything but tame.

XK COUPE: Sensuous and tempting.

Car shown: **XK8 COUPE** in Quartz with optional Aris 18" wheels (standard on XK8 Premium).
